EDUCATION

G H Raison College of Engineering

B.Tech in Computer Science & Engineering | CGPA: 8.7 / 10.0

Dec 2021 – Jun 2025

Nagpur, India

TECHNICAL SKILLS

Languages: Java, Kotlin, Python, Dart, C++, SQL, JavaScript

Backend & Systems: REST APIs, Firebase (Firestore, Auth, Storage, Crashlytics), SQL/NoSQL, async pipelines, offline-first sync, event-driven architecture

Concurrency: Kotlin Coroutines & Flow, Java threading, WorkManager (background scheduling, retry logic)

Architecture: MVVM/MVI, Clean Architecture, Dependency Injection, Repository pattern, CI/CD, multi-env builds

AI & ML: TensorFlow, PyTorch, BERT/Transformers, YOLOv5, OpenCV, LiteRT-LM (on-device inference), Gemini LLM

Tools: Git, Gradle (Kotlin DSL), Google Cloud Platform, Linux, Android Studio

PROFESSIONAL EXPERIENCE

Devanshu Studios — Founder & Lead Engineer

Aug 2025 – Present

Independent

Remote

- Architected and shipped **PyMaster** (Play Store) — 50k+ LOC platform with Clean Architecture, multi-env build system (dev/staging/prod), Gemini AI Tutor, and offline-first Firebase sync engine.
- Shipped **Chakuli** — **Offline AI Chatbot** (Play Store beta): on-device LLM inference (Gemma 2/3, Phi 3.5 Mini) via LiteRT-LM; WorkManager pipeline for background model downloads with retry and progress tracking.
- Owned full lifecycle: CI/CD, Crashlytics monitoring, RevenueCat billing stack (subscriptions + IAP), AdMob native ad mediation, Play Console publishing.

Athabasca University — Globalink Research Intern (Mitacs)

Apr 2024 – Oct 2024

Machine Learning & Software Development

Edmonton, AB, Canada

- Built a text ideology classifier using **BERT/Transformers** achieving **95% prediction accuracy**; deployed as a REST-backed web service for researcher validation.
- Led sole development of a cross-platform (iOS/Android/Web) field-trip app — Firebase backend, OpenStreetMaps integration; presented at TRESL Lab Symposium, Canada.

BETIC-GHRCE — Software Developer Intern

Oct 2022 – May 2024

Nagpur, India

- Built a production **Java/Kotlin** diagnostic app using MediaPipe FaceMesh — **60% accuracy improvement**, **30% inference speedup**; contributed to a **granted Indian patent** (Pub. No. 202321022476).

KEY PROJECTS

PyMaster — Learn Python / Dart, Firebase, Riverpod 2.0, Gemini AI, RevenueCat

2025

- Live on Google Play. 1,200+ exercises, gamified leagues, AI Tutor, offline-first sync — 50k+ LOC, production crash monitoring via Crashlytics.

Chakuli — Offline AI Chatbot / Kotlin, LiteRT-LM, WorkManager, Proto DataStore

2025

- Runs Gemma/Phi LLMs entirely on-device — zero cloud inference. Encrypted key storage, Agent Skills system, multi-GB model management via WorkManager.

V-Safe-Anywhere — Women's Safety System / Flutter, Firebase, IoT, Google Cloud

2022–2024

- IoT wearable + app: panic button triggers real-time GPS broadcast via Firebase — **98% uptime**. Published by [IGI Global](#).

ACHIEVEMENTS

1 **Granted Patent** (TMJ Screening Tool, India) | **ACM + IGI Global** publications | **Mitacs Globalink** Research Intern

BIREC E-YUVA Grant Rs.10L seed funding | OSS: Wikimedia Foundation (Scribe-Android)
